See the Saitama City Homepage for more details: <http://www.city.saitama.jp/001/011/015/005/p059817.html>

Saitama City has taken many hard-earned lessons from the disasters of the past. So we keep prepared each day for future earthquakes and other disasters.

In this effort, we (Saitama, Chiba, Tokyo, Kanagawa, Yokohama, Kawasaki, and Sagami-hara) hold the Joint Inter-Prefectural and Municipal Disaster Prevention Training Fair each year, enhancing and strengthening the “self-help” and “mutual aid” ability of residents and workplaces.

【 At the Disaster Prevention Fair 】

Fire Extinguishing

Learn how to put out a fire with a fire extinguisher.

Earthquake Experience

Take a ride in an Earthquake simulator, stay calm and brace yourself.

Smoke Tent

Learn how to move to a safe area while trying not to inhale the smoke.

VR Disaster Experience

Experience a disaster zone via virtual reality (VR).

First Aid Workshop

Learn CPR and other first aid for emergencies.

Firefighter Experience

Climb across a rope and experience what it's like to be a firefighter.

This year features a virtual reality disaster zone experience, in addition to a fire truck and helicopter rescue hero show!

In the earthquake simulator, you can learn how to brace yourself for an earthquake, and then try out your skills on the ride!

The disaster training fair provides many fun and informative experiences that will get you prepared. Come join us!

The fair is outdoors, so please bring something to drink, stay hydrated and take breaks to avoid heat stroke.
