Besshonuma Park is located in an urban area but is one of the largest parks in Saitama City. Located in the central city of the prefecture, it is accessible to everyone at any time.

The scenery created by the large pond that occupies most of the park and the rows of metasequoia trees is rich in variety, and the water and greenery provide a sense of harmony.

You can see various scenery during the day, evening, and night, and throughout the four seasons.

The view of the large pond surrounded by rows of giant metasequoia trees is beautiful.

Ducks and carp swim in the large pond, creating a peaceful atmosphere.

You can fish here and catch: crucian carp, freshwater shrimp, and tanago.

The sight of the tall metasequoias reflected on the water with fresh greenery, and autumn or fallen leaves is like a scene from a European painting.

Even at dusk or when the park does not feature any illumination displays, the lights of the city are reflected on the water through the trees, creating a romantic atmosphere. You can also enjoy a date at a stylish café in the vicinity.

Perfect walking and running courses

There is a 940m running/walking course encircles the park centering around the pond. The distance is also displayed, and it is an easy course to run.

The course is lit up at night, making it easy to walk or run anytime.

“Minna no Hiroba” with a fun playground for kids

Parents and children can play here free of charge. There is a playground with fun equipment for kids of all ages, including slides, swings, and monkey bars.
